

# THE SETTER AND POINTER CLUB CHAMPIONSHIP SHOW

## 3rd November 2012

I would like to thank the committee for asking me to judge this prestigious show. There was only a small number of dogs and bitches up to Post Graduate classes that I thought fitted the Pointer standard. The standard says – “The tail of medium length, thick at the root growing gradually thinner to the point. It should be carried on a level with the back with no upward curl, with the dog in movement the tail should lash from side to side”. Some tails went up like flag pole and were thick from start to finish. Quite a few exhibits had no turn of stifle; some with no width of thigh and no muscle. Hocks that knocked together on the move were also in evidence, as were ‘houndy’ heads and ears. Some exhibits were way over the height standard.
